

**HE'S SLEEPING TO DEATH AFTER
BITE OF DEADLY FLY**

Dr. A.C. Perveil

A victim of the rarest of diseases in this country, a Brooklyn physician, Dr. Albert C. Perveil, is now battling against the "sleeping sickness," the dread scourge of Africa. The germ is carried and transmitted by the tsetse fly, shown in the picture above.

Dr. Perveil contracted the disease while in the Congo, where he was in

the service of a Belgian mining company.

**MINERS TO MEET OPERATORS
IN MOBILE FOR WAGE TALK**

Indianapolis, Ind., Jan. 27.—Operators and miner delegates representing Western Pennsylvania, Ohio, Indiana and Illinois will meet at Mobile, Ala., for their wage scale conference Feb. 7, President White announced before the United Mine Workers of American convention here. This convention will extend into next week, he said.

Sentiment of the miners today seemed strongly to favor the eight-hour workday and the mine-run basis for wages. The eight-hour day is desired because it would give more miners steady employment. The wage scale committee, it was said, would report within the next two days.

Delegates decided by an overwhelming vote not to suspend work April 1 in case new wage scale agreements with the operators have not been made by that time.

**HEIRESS TO THOUSANDS AND
GARAGE OWNER MISSING**

New York, Jan. 27.—Miss Grace McLoughlin, heiress to \$250,000 of the estate of her father, the late Pat McLoughlin, rich Brooklyn policeman, has been missing since Dec. 9 and a countrywide search, it was learned today, has failed to find her. George Stevens, youthful owner of the garage where Miss McLoughlin's car was kept, has been missing since Dec. 9.

Mrs. Katherine Inglee, Grace McLoughlin's aunt, said she received this note from the girl:

"Forgive me for leaving you all alone. Please don't worry and don't be mad at me. Please write me care of the Bellevue Stratford, Philadelphia. We will be there tomorrow." Detectives it is said traced Miss McLoughlin to many cities, the last being Baltimore.
